HEATING

REDFERN

The Redfern Open Wood Fireplace brings atmosphere and warmth to indoor or outdoor spaces, creating a natural gathering point with the beauty of an open flame. Designed to heat areas up to 150m², it delivers an estimated 9kW of natural convection warmth for balanced, comfortable heating. With a slide-out ash pan, convenient hideaway safety screen and flexible installation options, the Redfern offers ambience, performance and versatility for any home.

* For clearance information please refer to the installation manual

**Space Heat Output is only a guide based on homes with average insulation, window area, and 2.4m ceiling heights. Differences in these factors, as well as others like, geographical location, layout of the house, living room size, type of windows all play a part in choosing the right model for your heating needs. Consult your dealer or installation contractor for more information.
